

Corporate Profile

Everonn Systems India Limited is a leading education and training company offering a range of services that include creating educational and training content of global relevance; designing and executing large learning initiatives and setting up the requisite infrastructure.

Being pioneers in computer education, Everonn has partnered various State Governments to bridge the digital divide by setting up computer lab infrastructure at schools and colleges and imparting IT education through well-trained Everonn faculty under our **ICT programme**. The labs also facilitate computer-aided learning at schools. *Currently present in 4442 schools across 11 states*

Everonn redefined access to education by setting up **Virtual and Interactive Learning** classroom networks across India to deliver quality yet affordable education. Everonn transcended the seamless space by reaching out to the remotest nooks of India and by developing and integrating content of universal standard for audience at schools, colleges, corporate and retail segments. *Everonn today enjoy premium status in over 400 schools and 800 colleges across the country, about 24 states.*

The **ischool initiative** is the produce of yet another pioneering effort of **Everonn**. This initiative will offer a blended format of content delivery to schools **through server based content; and live sessions through the VSAT platform**. The large repository of digitalized curriculum support content will be deposited in the servers of the individual schools. All the classrooms will be then networked and equipped with interactive white boards, projectors, and computers. Content will then be just a click away... In addition to this, every school will be VSAT enabled, which will facilitate transmission of the live and interactive sessions from our studios through satellite.

Everonn's classontheweb is a unique educational portal designed to raise student achievement in academics as well as extra curricular activities. It has a large repository of innovative and quality content, which provides round the clock academic assistance. An exhaustive question bank covering national curriculum enhances the portal's wholeness.

Value added services – post school hours for ischool

- Entrance exams coaching - IITJEE, AIEEE, Pre Medical Test, CA Entrance, Foreign Language courses...
- Tuition

www.everonnischool.com

Everonn will address the entrance examination coaching requirements through its new arm – **Everonn Toppers Tutorial**. Initially it will offer IIT-JEE and AIEEE coaching through physical centres ably supported by special sessions by eminent academicians over the VSAT platform.

At Universities and Colleges, **Everonn Learning Academy** offers a wide range of programs (IT, ITES, Banking and Financial Services verticals) that are job oriented and industry specific over the online interactive learning platform. In addition to this, it also brings industry sponsored programs in association with various leading corporates and institutions. **Everonn Privilege Membership** entitles its members an access to a range of courses in the chosen vertical, with value adds in form of guest lectures, management workshops, soft skill training, project work and placement assistance.

After having created an indelible mark in scores of schools and colleges across the country, Everonn entered the sphere of providing quality training and education through **Retail Training Centres**. These centres are VSAT enabled and equipped with state-of-the-art facilities to conduct a wide range of training programmes to meet the burgeoning demand of quality manpower across various sectors in India. Everonn Retail Centres provides a one-stop solution for quality training programme culminating in an overseas recognized certification

These centers also double up as testing centers for Everonn's Testing and Alliance Partner Services (TAPS). Everonn is the Authorised Test Centres for Pearson-VUE & PROMETRIC for conducting IT certification exams. In addition, TAPS has also succeeded in making Everonn retail centres as Certified Test Administrator Sites (CTAS) for conducting TOEFL (Test of English as a Foreign Language) exam, which is owned by Educational Testing Service (ETS), the world's largest private educational testing and measurement organization. Everonn is the largest partner for ETS, administering TOEFL-iBT across 34 sites in India. The operations followed at Everonn test centres were recognized by ETS, when Everonn was awarded the Best Practices Award by ETS in 2007

Everonn retail centres also provide admission guidance services for students who are aspiring to study abroad to pursue their higher education in countries like USA, UK etc.,

Our **Corporate Training Division** believes in the overall development of the individual. It strives for excellence and offers solutions that help in Behavioral and Attitudinal changes thus bridging the gap between employee characteristics and organisation expectations. The individual discovers and unleashes his/her true potential. Everonn has a dedicated team of world-class trainers to support this endeavour.

Content is always King... **Knowledge Resource Development & Research (KRDR)**, Everonn's content division proves this beyond qualm. Unique and fresh content is constantly churned to provide for the insatiable appetite of its consumers. The instructional material generated is based on current research, best practices and proven educational techniques. Leading and experienced educationalists, research associates, faculty, content developers and animators form this team while great vision and zeal drive it.

Everonn proposes to leverage the large and rich content repository of **Knowledge Resource Development & Research** by publishing books; 10 – 12 educational books are planned annually. . April 08 saw the launch of the first book titled 'Managing your Investments'.

Bringing the best to your doorstep is Everonn's **Technology Squad**. Everonn state-of-the-art studios are fully equipped with the requisite audio, video and computer systems, which enable instructors to effectively communicate. The digitally enabled 'Lecture platform' allows instructors to use animation, video, audio and other presentation tools to enhance the learning process. This virtual platform blends the strengths and advantages of traditional methods of education with cutting edge of technology. Using a powerful interface, it enables a student to engage in participatory sessions with peers and instructors across the country. Everonn today, has the expertise to design '**wired and wireless knowledge and training delivery platform**' and has Government departments, corporate and institutions as esteemed clients.
